He will be in capacity to repair or coordinate all mechanical issues on the lifts operating under his supervision.

III. ABOUT PGI

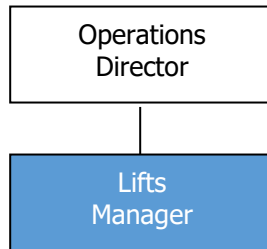

Pas Grau International (PGI) is the world's largest specialist in mountain / ski resorts advisory services.

PGI is the international division of SAETDE, operator of Grandvalira, one of the top ski resorts worldwide (240 km slopes, over 2 million visitors per year). The company leverages SAETDE's 60 years' experience, with its know-how in designing, building and operating ski / mountain resorts, having already supported over 15 countries in four continents.

Our greatest value is our extensive experience in all the phases of the Mountain Business Model, from its design until the commercialization process, including construction and operations.
